at 48c., 69c., 97c.

32 to 36 West 23d St.

## Instruction.

## SHORTHAND. Script Phonography.

## WHAT IS IT?

A new system of phonography radically different from  
all others. It is intended to bring the scope of shorthand,  
and avoids the recognized defects of other systems.  
It is based upon the principle of direct transcription,  
competition in legibility and speed. It is learned in a  
course of six weeks—not six months. Grammar school  
boys will do well to learn this system during  
vacation.

MCGREGOR &amp; JONES, 12 UNION Sq.

## A BUSINESS EDUCATION.
